MACHINED PART

OTHER SURFACES 6.3

TECHNICAL REQUIREMENTS
1. Mark the drawing number in SimSun, font size 20. Do not mark surfaces with machining tolerances.
2. Unless otherwise specified (do not chamfer), chamfer hole edges and sharp edges C0.5.
3. The workpiece shall be free of scratches, dents, burrs, incomplete plating, baked-paint color variation, rust and other visible defects.
4. Use 100-mesh fine abrasive for sandblasting.
5. Dimensional tolerances for all threaded holes and counterbores shall be +/-0.20mm, regardless of manufacturing process.

GENERAL TOLERANCES (UNLESS OTHERWISE SPECIFIED)			
X.	± 0.5	X.°	± 1°
.X	± 0.2	.X°	± 0.5°
.XX	± 0.05	.XX°	± 0.1°
.XXX	± 0.01	.XXX°	± 0.01°

Unspecified linear and geometric tolerances shall conform to in-house standards. All dimensions are finished dimensions, in MM.
